LINDDNA

Welcome to LIND DNA's product catalogue 2018

On the following pages, we have collected all of our latest product news as well as our well-known classics for you. To present our tabletop collection in the most inspiring surroundings, we have chosen to take the photos for this book at some of the world's best restaurants - located in and around Aarhus.

More than that, we show you the full capacity of LIND DNA - both our products and our competences within retail and the professional contract market. If you want to know more about us as a company, just flip the book around and start browsing from there.

We hope you like what you see and want to follow our journey.

RECYCLED LEATHER IN THE HIGHEST QUALITY

One distinctive source of beauty in LIND DNA's products is the naturalness and inherent glow of the materials we use. All of our materials are chosen with respect for nature and their potential for sustainable processing - because we care about the world we live in. And we cherish the beauty of natural products.

The bedrock of most of our designs is high-quality recycled leather.

Sourced from the surplus production of furniture, bags and shoes, our vegetable-tanned leather is first being washed and granulated and then pressed together with natural rubber from trees. The resulting quality consists of 80% hard leather and 20% natural rubber - which then is dyed and decorated with beautiful surface structures and patterns.

The surface is what gives each of LIND DNA's recycled leather products its individual character.

With more than a thousand different variations of surfaces, shapes and colours, we offer the largest selection of table mats available on the international market. Designed and manufactured in Denmark.

Turn the page to take a look...

SURFACES

LIND DNA's table mats give you the exact look you want for your table setting, while at the same time serving as a protection for your table. All of our table mats are made of recycled leather. Their look and feel does vary quite a bit, however, due to their different surfaces. The surface is what gives each table mat its individual character and by now there are eight different options to choose from - many of them inspired by the world of animals. There is one for every table, every taste and every home.

HIPPO

This surface has an eye-catching, organic expression. Its noticeable structure emphasizes darker and brighter shades of colour in the most beautiful way across its surface. Depending on the colour you choose, HIPPO can both be styled in a classic and sophisticated way, or as a bold, modern add-on to your tabletop ensemble. The hand feel is smooth and strong at the same time. HIPPO is one of our strongest surfaces.

NEW HIPPO COLOURS

Colours in interior design and decoration are popular. Therefore, we have added a new selection of exciting nuances to our HIPPO collection. From dark tones - such as anthracite, dark blue and plum - to classic earth tones and vibrant bright shades, such as orange and yellow. There is a colour for every taste.

SOFTBUCK

This smooth and half-matte quality has a distinctive clean look that puts exclusive focus on the colour of table mat you choose. With almost no structure on the surface, it creates a minimalist and timeless look on your table that fits in with any kind of style and table setting.

NUPO

This is one of LIND DNA's most popular surfaces. It has an unmistakable, suede-like and exclusive look, with a soft structure and a hand feel with a bit of a grip to it. It is both understated and elegant as well as timelessly beautiful and classic in any of the numerous available colour options.

BULL

With a rather small, fibrous pattern, this surface has a classic leathery look to it. Its rustic expression fits into your everyday table setting and beautifully adds on to a cozy-chic environment. The surface is soft, durable and looks slightly polished. It is one of our strongest surfaces.

BUFFALO

With its large and natural looking pattern and its worn aesthetic, BUFFALO is an unspoiled surface, that brings a perfect foundation of rustic style to your table. Alternatively, it can beautifully balance out a more sophisticated table setting in a grounded and understated way. It is one of our strongest surfaces.

CLOUD

With its smooth and visibly structured surface, CLOUD has a strong leathery look to it. The play of lighter and darker colour nuances across its surface look a bit like the clouds in the sky - with a slightly polished finish. It is one of LIND DNA's strongest qualities and it adds on beautifully to your everyday table setting, as well as that next formal occasion.

DOUBLE LEATHER

With our double-sided table mats you won't have to limit yourself to just one of your favourite colours anymore. Choose two colours at the same time and enjoy the freedom to change the expression on your table within a heartbeat, by just flipping your table mats upside down. LIND DNA's double-sided leather quality is one of a kind and it gives you that extra flexibility when setting the table.

CROCO

This is one of LIND DNA's more bold and trendy surfaces - for the perfect statement on your table. With its unmistakable, lively pattern, CROCO invites in the best way to conversation and fun around your table. If you are into organic structures and playful expression, this surface is perfect for you. At the same time it is one of our strongest surfaces.

LACE

This is a half-glossy, half-matte, extravagant surface, inspired by premium lace fabrics. It comes in two sophisticated colours (black and brown) and it will make the perfect statement at your next event. Promised. LACE is one of our strongest surfaces.

THE SHAPES OF LIND DNA

Setting the perfect table is an art of its own. But as long as your decoration suits your personality and the overall style of your home, you can't go wrong. All of LIND DNA's table mat surfaces come in four different shapes - one for every table and every taste.

CURVE

This is LIND DNA's most famous and widespread shape. More than that, it has become the unique and patented trademark of our brand. The CURVE was LIND DNA's very first design, originally created from a sketch of 54 perfect circles. It adds a decorative twist to your table and it is practical at the same time - as it will only take up the exact space you need for plates, glassware and cutlery. It is available in small, large and as glass mats.

OVAL

If you have a round or an oval table, you might want to go for table mats that avoid any overlapping of the edges. With our oval table mats you will add an organic and modern touch to your dining area at the same time. It is available in small and large.

SQUARE

If you enjoy clear, straight lines for order and harmony on your table, you will like our square shaped table mats. They beautifully define a fair amount of space for all your plates, cutlery and glassware, while being classic and subtle to the eye. It is available in small, large and as glass mats.

CIRCLE

If you want to do something differently, you should take a closer look at our circle formed table mats. They will add a balanced, yet unconventional, modern expression to every one of your table settings. It is available in small, medium, XL and as glass mats.

CURVE STONEWARE

CURVE STONEWARE

As a natural development of our CURVE tabletop collection, we have recently created a brand new product range in stoneware. Due to its distinctive shape, CURVE STONEWARE lets you reinvent completely, how to arrange and serve food on a plate, a platter or a bowl. At the same time, this collection lets you play even more with the perfect symmetry of your tabletop ensemble, by adding yet another dimension of curves to your table.

The entire collection consists of three different plates, a platter plate and two bowls. All products are available in black and navy blue, which plays very well with the unique, mat surface of the stoneware. The entire range is heat resistant up to 270 °C in the oven and due to the high density of the material, all pieces are very durable. All CURVE STONEWARE products are freezer, microwave and dishwasher safe. Combining your table mats with the matching stoneware creates the perfect harmony on your table - in everyday life as well as for festive arrangements.

CUT & SERVE

CUT & SERVE

This is a beautiful collection of cutting boards in wooden appearance - available in a lighter and a darker colour (ash and walnut). Due to their appealing design, the boards are very versatile and can also be used as decorative serving boards for tapas or snacks. The complete series is extremely thin, lightweight and easy to clean - even dishwasher safe. All boards are heat resistant up to 200 °C and can therefore also be used as trivets for your hot pots and pans. The collection is made from compact laminate, a very strong and durable material, consisting of multiple kraft paper layers, pressed together.

LOOP

Our LOOP is a napkin ring in recycled leather, that holds together and embellishes the napkins in your table setting arrangement. It's available both in one colour and double-sided, with different colours on each side, so you have the possibility to flip it around and choose another colour option every now and then. The available colour options match the colours of our table mats, so you can either complement the two or play with different colours for a nice contrast.

LOOP NAME

LOOP NAME is a combination of a napkin ring and a name card in one - it is our way of making your table setting as personal as possible. The available colour options match the colours of our table mats, so you can either complement the two or play with different colours for a nice contrast.

LOOP BRIDGE

A beautiful, simple napkin ring that completes your table setting in an elegant way. It's available both in one colour and double-sided, with different colours on each side, so you have the possibility to flip it around and choose a different colour option every now and then. The available colour options match the colours of our table mats, so you can either complement the two or play with different colours for a nice contrast.

GLASS DECORATION

Our glass decoration icons are the perfect way to keep track of your drink at a party - and yes, they are also a great gift for the host or the hostess. They come in two shapes (a STAR and a FLOWER), in several colours on both sides and can be attached to your glass through a tiny opening.

CELEBRATION COLLECTION

Our celebration collection consists of a number of small, two-sided ornaments (a TREE, a STAR and a HEART) and two kinds of glass mats (a STAR and a HEART) in different colour combinations. All ornaments come with a leather string attached, so you can easily hang them up. The glass mats can also be used as name cards or simplistic decoration items throughout the house.

HOSPITALITY

Hotels and restaurants from all over the world turn to LIND DNA, for an excellent quality of products, a high level of service and enormous flexibility with regards to production.

We have a wide range of standard solutions within table mats, glass mats, menus and other tabletop and interior products, to suit all catering establishments.

In contract business - and whenever personal service is involved - it is often the details that make the difference. Therefore, LIND DNA also provides custom designed collections and services for all collaboration partners in this field. Customization options are virtually limitless. Thanks to our different leather surfaces & colours, the designs can be tailored to fit any style and setting.

LIND DNA table mat designs are handcrafted in Denmark, ensuring unprecedented quality in every step of the production process, as well as flexibility and speed delivery. All of our recycled leather products are made of 80% hard leather and 20% natural rubber and are easy to clean. Our materials are chosen with respect for nature and their potential for sustainable processing - because we care about the world we live in. And we cherish the beauty of natural products.

It is our mission to help dining, drinking and service-establishments not only to get noticed – but also to be remembered. Be remembered for gorgeous design, intelligent details, sustainable responsibility and practical toughness, that in the end provides a bottom line boost.

If you want to know more about the possibilities for a cooperation, we would love to get in touch.

All the best.

Jette Skovbjerg, COO

Our tray collection is made from durable aluminum, which has been tested thoroughly by experts and was approved as very strong and suitable for professional use. All trays come with an exchangeable inlay in recycled leather - perfect for minibars, bathrooms and as serving trays.

TRAY SQUARE is available in five sizes (including an extra large version, made especially for the hospitality market) and in three aluminum colours - metallic, anthracite and bronze. The exchangeable inlay is available in all DOUBLE leather colours - displayed on page 205. All of our trays can be customized with regards to size and special details.

AARHUS

COLLECTION

Size A4

AARHUS is an informal yet upscale collection of menu holders, that will make a great first impression on your customers.

It is an effortless flip-over concept, that can be used in a landscape and a portrait version. It comes with a leather cord in the top, holding frontside and backside together. The leather cord - adjusted with an oak bead - will hold even numerous pages securely in place. To ensure great stability, the backside of the board is made of two layers of leather.

AARHUS is available in size A4. The collection comes in all DOUBLE leather colours (displayed on page 205), which gives you the opportunity to surprise your customers with an extra colour when opening the menu.

ROME

COLLECTION

Size A4

Size A5

ROME is an innovative and stylish collection of menu holders that will delight your customers, while choosing their servings.

It is a flip-over concept, with decorative steel rivets in the top, holding frontside and backside together. The rivets have an opening and closing function in the back. To ensure great stability, the backside of the board is made of two layers of leather.

ROME is available in size A4 and A5. The collection comes in all DOUBLE leather colours (displayed on page 205), which gives you the opportunity to surprise your customers with an extra colour when opening the menu.

LONDON

COLLECTION

LONDON is a contemporary collection of traditional clipboards with a twist - making it clear to your customers, that they have come to a place, that values improvement and rethinking of the status quo.

The collection consists of a simplistic clipboard version and a folder version.

The clipboard is available in size A4, A5 and A6. To ensure great stability, the backside is made of two layers of leather. It comes in all of LIND DNA's surfaces and colours.

LONDON can also be made in WOOD/SOFTBULL - made of genuine wood veneer on the one side and black recycled leather on the other side. It comes in a bright oak wood colour and darker walnut wood colour.

The folder version is available in size A4 and it comes with an optional holder for a pencil inside. It is available in all DOUBLE leather colours [displayed on page 205], which gives you the opportunity to display different colours on the inside and the outside of the folder.

STOCKHOLM is a clever collection of delightfully detailed payment folders, that will help you to complete your customers visit in the perfect fashion.

With a size of 9x18 cm, STOCKHOLM offers room for both the bill and a credit card. The upper part of the payment folder can be flipped up and down and be fixated under the lower part of the holder, so the bill or the credit card won't show or fall out. Metallic corners in the bottom securely hold the frontside and the backside of the folder together and at the same time they add an exclusive touch. The collection comes in all DOUBLE leather colours (displayed on page 205), to delight your customers with different colours on the inside and the outside of the folder.

CARE GUIDE

LIND DNA's recycled leather products are natural products (made of 80% hard leather and 20% natural rubber). To maintain their beautiful aesthetic appearance and their great quality characteristics in the long run, it is important that they are treated correctly. The following instructions show you how:

- Clean your recycled leather product with a damp cloth and LIND DNA's cleaning spray. Recycled leather products are not dishwasher safe. Do not soak any of your products in water or soap.
- Avoid stains from certain foods and liquids - such as curry, saffron, paprika, chili and red wine - as they may result in permanent damage, if not removed immediately. Be extra careful with lighter leather colours.
- Do not place hot items, such as pots and frying pans on your products.
- Do not fold your recycled leather products.
- Avoid exposure to direct sunlight for longer periods of time, as this may harm the leather structure of your product.
- Make sure to place your recycled leather products on dry and plain surfaces only. Be extra careful with oil-treated tables, as excess oil might be absorbed, if not removed immediately.

CLEAN&CARE

LIND DNA's new cleaning spray CLEAN&CARE was developed to perfectly clean your table mats, glass mats and other products in recycled leather. It brings back the beautiful finish of your product after use and adds a refreshing scent. CLEAN&CARE can either be sprayed directly on the surface of your product or on a damp cloth.

VISION

To become a global leader in the market for high quality interior products within the retail and contract business.

WELCOME TO OUR WORLD

You might have heard, that at LIND DNA we come to work every day, to take table setting and decoration to a whole new level. But there's a lot more to us, than that.

With the next pages, we want to give you an up-close and personal look into who we are. As a company, as a brand and as people. We hope you enjoy browsing.

All the best from team LIND DNA.

MISSION

We are passionate about designing, producing and selling interiors products primarily in recycled leather.

With the largest selection of tabletop products made from responsibly sourced materials, we make table setting and decoration more fun and creative for everyone with a taste for Danish Design, made in Denmark.

We offer more, we are easy to do business with and we always walk the extra mile to support our customers and to reach our goals.

DENMARK

WE DO IT OUR WAY THE LIND DNA WAY

LIND DNA was founded by entrepreneur and designer Preben Lind, back in 2013. In the years ever since, we have gone through a period of rapid development and growth. Today, we offer the largest selection of table mats on the international market, with more than a thousand different variations of colours, shapes and surfaces. Besides our vast selection, it is our recycled leather quality and our recognizable, organic CURVE form, that have become the trademark of our brand.

All of our products are born out of passion for beautiful, subtle design and impeccable craftsmanship. Local and sustainable production, the use of natural materials and top-notch quality standards are among our founding values. Over time, our collection has grown into small furniture and a range of other interior products for the home, for hotels, restaurants and projects.

From our headquarters in Aarhus, we export to more than 40 countries around the world. And we won't stop here. With a dedicated team, delightful designs, amazing craftsmanship, local production, a sustainable mindset and the fruitful Aarhus business environment surrounding us, we strive to further redefine industry standards in the years to come.

WE DESIGN
A COMPLETE UNIVERSE OF STYLE

LIND DNA offers you an entire world of designs, that beautifully complement each other, without ever depending on each other. A complete universe of style, in which you can choose products from across seasons, collections and product categories - and bring them together to perfectly suit your personality and your home.

Our most famous and widespread design is The original TABLE MAT, shaped in the recognizable CURVE form. The table mat was our very first design and thus, it marks the beginning of the company's history. The design protected CURVE form is part of our very DNA and throughout the years, it has inspired the development of numerous designs - such as our latest collection of stoneware.

Due to its distinctive shape, CURVE STONEWARE lets you reinvent completely how to arrange and serve food on a plate, a platter or a bowl. At the same time, this collection lets you play even more with the perfect symmetry of your tabletop ensemble, by adding yet another dimension of curves to the game. Hygge, social occasions and shared meals are at the very core of Danish culture. We want to add on to those moments with our designs and spread them across the world.

WE: DESIGN CREATE PRODUCE IN DENMARK

WE DESIGN & DEVELOP IN-HOUSE

All of our designs are being developed internally and creative master mind, Preben Lind, is following the process very closely – from idea to final production. But the beginning of every design process can be very different, here at LIND DNA. It might just start with an employee's idea in our idea box. Or a sketch over something from lunch. Every third month, the best internal idea is being rewarded with a price and sometimes the winner even goes into production.

As for our founder himself, the inspiration for every next design can be sparked by anything he sees or hears, throughout his busy day. Many of Preben's ideas are motivated by the ongoing desire to improve, complete and rejuvenate our existing line of products and to let our recognizable CURVE form - our DNA - live on. At the end of the day, every design needs to live up to the basic principle of form and function in perfect harmony.

WE: DESIGN

WE DESIGN TOGETHER WITH YOU

Besides our large selection of favourite things for your home, we design and manufacture tabletop products for the international hospitality and project industry. In contract business - and whenever personal service is involved - it is often the details that make the difference. Therefore, LIND DNA provides custom designed collections and services for all collaboration partners in this field. From trays to table mats in unique colours, to coasters in special sizes, menu folders with embossing, drinks covers with a special stitching or payment holders with your own logo on top - you name it, we make it. From casual eating to fine dining - our large selection of colours, shapes and materials will help you to make a statement in any kind of setting and to create a truly unique and memorable dining experience for your guests. Time and time again.

WE MAKE IT YOUR WAY

WE: DESIGN CREATE

**WE CREATE
FROM BRAINSTORM TO
PROTOTYPE WITHIN HOURS**

Craftsmanship and the act of creation is what everything else evolves around, here at LIND DNA. We have a bias towards action, where building and testing is valued more than thinking and meeting. And it is not in the company's nature to stand still. Everybody on the team is encouraged to put forward ideas and since we have all of our machinery and tooling in-house, we can go from brainstorming to prototyping within hours.

Prototyping is an essential part of our process of creation, because it allows us to test our ideas immediately, show them to potential customers and improve on them in an equally timely fashion. Someone smart once said: "if a picture is worth a thousand words, then a prototype is worth a thousand meetings." We believe this is true.

WE PRODUCE AS FAST & LOCAL AS POSSIBLE

In line with our rapid growth in recent years, our production facilities have grown extensively. By now, we have approximately 3000 square meters of production space available and insist – when ever possible - on our own, local production in Aarhus. We choose to do this for a number of reasons:

First of all, local production gives us the opportunity to be hands-on throughout the entire process of product maturation and to secure continuously high manufacturing standards. Secondly, we care deeply about sustainability and our own production enables us to limit our footprint on the environment. On top of that, we can respond to market needs in a heartbeat and produce to order - which is important in a growing market. We can deliver quickly. And last but not least, being under one roof gives us the advantage, that ways of communication are short.

We believe in local craftsmanship as an enormous source of strength and prefer to cooperate with other local suppliers. LIND DNA - Danish design, made in Denmark.

SOCIAL RESPONSIBILITY FIRST

WE: DESIGN CREATE PRODUCE IN DENMARK

WE PRODUCE WITH RESPECT FOR NATURE

The bedrock of most of our designs is high-quality recycled leather. Sourced from the surplus production of furniture, bags and shoes, our vegetable-tanned leather is first being washed and granulated and then pressed together with natural rubber from trees. The resulting quality consists of 80% real leather and 20% natural rubber - which then is dyed and decorated with beautiful surface structures and patterns. It holds outstanding physical characteristics, such as being water repellent, durable and easy to clean.

Besides recycled leather, we work a lot with responsibly sourced oak and wool and most of our products are not only designed and manufactured in Aarhus, but also packaged locally. Our biodegradable and compostable packaging material is made from wood fiber, by KRAFTPAK.

All of our materials are chosen with respect for nature - because we care about the world we live in. And we cherish the beauty of natural products.

By printing little, eating meat free one day a week and recycling our waste, we try to implement sustainable ways of working into our office routines, as well. Because we believe that at the end of the day, many small actions can make a world of a difference.

OUR CITY

WE:

DENMARK

Located in the centre of Denmark, on the east coast of the Jutland peninsula, lies the city we call our home. With its approximately 300.000 inhabitants, Aarhus is the country's second largest city, once known only as a university town with a Viking-founded seaside port and a vibrant student population that fueled its economy. But things have changed, and they have changed a lot.

Today, Aarhus has emerged on its own terms as a design destination. It has a vibrant economic life and a buzzing start-up scene. It has a rich cultural life, with world-class museums and institutions and a thriving music scene. But the one space that might just have developed most of them all in recent years, is the city's culinary scene.

We acknowledge the city's enormous development and the vibrant business environment it provides. We strive to be as visionary and innovative. We identify with the ambition to combine sustainable ways of working with profitability. And with a heart for hygge, social occasions and shared meals, we are thankful to be surrounded by the greatest restaurants in the world.

LIND DNA

BEHIND THE SCENES

WHO WE ARE & WHERE WE ARE

In a period of five years, LIND DNA has grown from a hand full of people to a team of more than 30. We come in many colours and shapes, just like our table mats, you might say. We have different backgrounds, levels of education and experience. We have different ages and lifestyles. But what unites us all, is that we take pride in doing our best at what we're best at. We meet each other with enthusiasm and respect and our fellow goal is to create value for the people who buy our products. We run fast and everyone has the power to imprint on the organization's development. At the end of the day, we appreciate a good laugh, cozy get-togethers and great food.

Every now and then, we invite our customers from all over the world to come and visit us in our showroom, in central Aarhus. Here, we can give them an overview of our complete commercial concept - from product news and packaging material to a variety of in-store display solutions for the perfect product presentation. We enjoy close relationships with all of our collaboration partners and like to develop fellow strategies on how our different solutions can benefit each and everyone of them in the best possible way.
