

Hospitality

Welcome to our world

Good design has to pay its way.

It is our mission to help dining, drinking and service establishments not only get noticed – but also remembered. Be remembered with gorgeous design, intelligent detail and practical toughness that also provide a bottom line boost.

Hospitality

MADE IN DENMARK

All LIND DNA designs are hand-crafted in Denmark, ensuring unprecedented quality in every step of the production process.

SUSTAINABLE DESIGN

Sustainability is at the heart of the LIND DNA strategy. Our recycled leather is made from 80% reused leather and 20% natural rubber.

CUSTOMIZATION

Customization options are virtually limitless. Thanks to the different leather finishes, the designs can be tailored to fit any style and setting.

FLEXIBILITY & SPEED DELIVERY

Due to local production, delivery time is short for both customized and standard orders, which ensures the highest degree of flexibility.

MAINTENANCE

The unique combination of recycled leather and natural rubber gives a strong and durable material, which is very easy to maintain, and which will keep its look and feel through continued use.

Local makes SENSE

Made in Denmark

All LIND DNA products are designed, manufactured and packaged locally in Aarhus – a small, but creatively burbling coastal city in mainland Denmark.

Hands-on flexibility

We insist on using local craftspeople and local production so we can maintain our stringent – some would say obsessive – attention to detail and high quality standards in all our products.

The Lind family is hands-on about everything from prototyping, designing, manufacturing, packaging and distribution. We want to be able to monitor, check, tweak, reconsider and learn – sometimes even completely rethink. Something that would be impossible in an outsourcing factory on the other side of the world.

Gone natural

One distinctive and fundamental source of beauty in LIND DNA products is the naturalness and inherent glow of the materials we use, enticing your gaze and inviting you to run your fingers over their subtle surfaces.

Traditional craftsmanship makes sure these materials retain their raw beauty, and helps ensure impeccable quality and finish in all our products.

From leather to better leather

We source high-quality leather off-cuts and surplus stock from reputable shoe, handbag and furniture manufacturers.

This leather is then ground and mixed with natural rubber and water to create a unique, gorgeous-looking upcycled material that consists of 80% reused leather – and is tough, water resistant and very easy to wipe down.

Oak

We use responsibly sourced oak, along with gentle treatment methods and traditional craftsmanship, which combined ensures the wood retains its natural glory.

Wool

Wool features in many of our designs. We keep the wool its natural colour – no dyeing – and make sure the wool retains its tousled, rustic look.

The OSLO collection is our simple, but highly functional menu, wine and drinks folder. The combination of our double recycled leather and the ease of the design, gives it a unique expression. With this collection there is again the wonderful opportunity of showing one leather colour on the front side and another leather colour on the inside.

The elastic string gives room to either one page or several pages, and also holds the pages inside the folder. Allows for a swift and easy change of pages.

The OSLO design comes in A5, A4 and also our Tall edition 11,5cm x 32cm.

The OSLO collection is available in all of the DOUBLE leather colours on page 79.

BRUSSELS

COLLECTION

The BRUSSELS collection is our special restaurant or hotel binders. This collection has a heavier feel to it, which lets the quality of the materials speak for itself. The binders hold numerous pages, and the combination of wool and leather gives the collection a chic and effortless finish.

BRUSSELS I has a significant curve of leather round the spine, and is elegantly supported with wool on the inside.

BRUSSELS II is special due to the splitting leather, allowing the wool to show at the spine and giving it a soft and natural essence.

The collection is made in size A4, and the leather colours available can be found on page 77 - 78.

The sky is the limit

In the hospitality industry, in contract businesses and whenever personal service is involved, it's often details that make the killer difference.

That's why LIND DNA provides special design collections and customisation services for customers in dining, drinking and service establishments/hotels, restaurants and cafés all over the world.

This feature a customised selection of gobsmackingly gorgeous and surreptitiously sensuous design items that'll get your establishment noticed, appreciated and remembered.

There are mats, coasters, menu folders, drinks covers and billing etuis made of recycled leather and featuring eye-catching designs by the bucketload. And you can have them customised in loads of ways – in colour, shape and size, and with text, graphics or logo embossed or printed on the recycled leather, as you prefer.

The recycled leather can be combined with natural felt, and exclusive hand stitching can also be added. The exceptional durability of recycled leather makes it ideal for tough use in hospitality emporiums.

We also provide custom-made trays made of steel or aluminum with or without reversible insertions made of hard-wearing, recycled leather, with designs and features of your choice.

Talk to us about what you'd like – or what you'd love to be able to get.

CLEANING

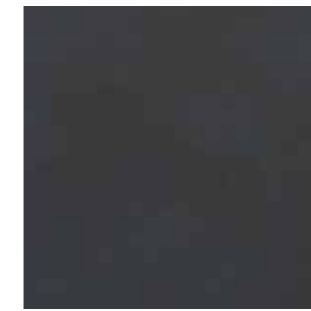

LIND DNA mats are easily cleaned with a wet cloth and window spray.

Certain foods and liquids may result in permanent stains if they are not cleaned right away. Substances like curry, saffron, paprika or chilli may be problematic on lighter colour mats. Wash immediately to avoid permanent damage.

HANDLING

Do not place hot items such as pots and frying pans on the mats.
 Do not fold the mats or allow them to crease.
 Avoid direct sunlight exposure for longer periods of time as this may affect the structure of the leather.
 Make sure to place the mats on a dry surface.
 Do not run the mats through a dishwasher.
